## **QUARTER 1:**

### **Cartoon & Caricature: Simple Lines & Funny Faces**

Cartooning is all about simple lines and learning how to put them together. Learn the basics to create your own characters and backgrounds as well as exploring a few cartooning styles. Finish off with the slightly more difficult world of caricature. Here we will learn how to exaggerate the facial features to give us something to laugh about.

## **QUARTER 2:**

### **Digital Art: Awesome Art Without the Mess**

Drawing, painting, and sculpting can be quite messy but rewarding. In digital art, get the reward without all the hassle of graphite, paint, and clay. Learn to use technology you may already have to make wonderful art or possibly hone a skill set that can help you make some money

## **QUARTER 3:**

### **Photography: How to Shoot People\* and other Things**

\*Pictures people, NOT GUNS! Shooting pictures! In this workshop learn camera basics. After understanding terms and gear we will learn through experience how to take better photography and better utilize a tool we probably already carry around with us everywhere.

## **QUARTER 4:**

### **Word Art: Hand Lettering, Typography, Calligraphy, and Fine Art Graffiti**

A picture's worth a thousand words, but what if our words were as pretty as a picture too!? Learn to make your chicken scratch into a golden egg with this class all about the basics of creating your own lettering. Whether by hand or digital this class will allow your words to be a work of art.

## **Drawing Basics**

### **Description**

Back to the drawing board. Learn the basic skills needed to sketch and draw either from life or from photo references. Going over exercises that sharpen skills you already know just by knowing how to

write your name. With a few types of lines and some shading knowledge you'll be drawing a crowd before you know it!

## **Painting Basics**

### **Description**

Bob Ross makes painting look so easy huh? Ever tried it? Oh sure!, go to painting with a twist and sit around and drink booze\* and then claim its way to difficult to control the brush. Sober up with this class that goes back to the beginning and teaches the basics of color choices, brush control, and simple techniques to make your previous muddy messes into masterfull masterpieces, or closer to it at least.
